WhatsApp – Email – Website | **Military State**: Exempted

Flutter Developer

I have almost a year of experience in **Flutter** after two years of **Android** development, and **SOLID** is not just a word for me in dealing with **Dart,** I am more than familiar with **Dio**, **RxDart**, **GetIt**, **Bloc/Cubit** and **Dependency Injection** pattern and also **up-to-date** with mobile landscape, architectures, trends, and emerging technologies.

Projects:

eCommerce (Cubit – Dio – Shared Pref)
> This app is an online **Course-Shop**.
> *Check The App Click Here*

Chatting App (Firebase – ListView - Animations)
> This app lets you sign up with your email and password and login to join a general chat room.
> *Check The App Click Here*

Weather App *(API – Location - Permissions)*
> This app displays the current location and get any specific country location.
> *Check The App Click Here*

BMI Calculator (MultiScreens – Widgets)
> This app takes Input from the user and display result.
> *Check The App Click Here*
